

AUTOMATED WAREHOUSING

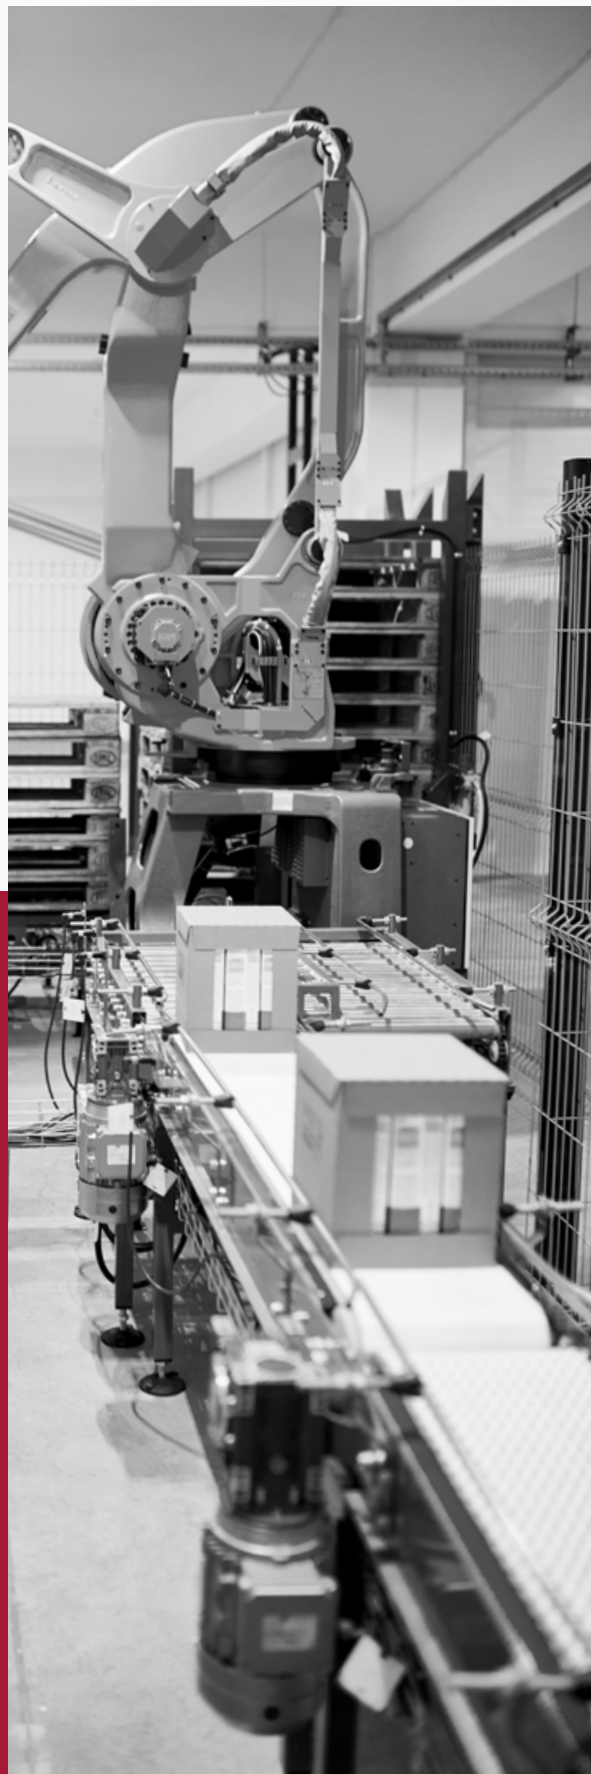

CAPABILITIES

JARLAM

Specialists in automated warehousing installations.

We provide turnkey automated warehouse solutions, including project management & installation.

Areas of Expertise

Jarlam provides turnkey solutions for automated warehousing installations, including:

- **Project Management:** Strategic planning and execution.
- **Turnkey Projects:** End-to-end installation solutions.
- **Qualified Tradespeople:** Experts in installation, fabrication and fitting.
- **Mechanical Engineering:** Drafting, schematics, and design.
- **Equipment Supply:** Fully equipped site boxes.
- **On Site Workshop:** Fully equipped container workshop.
- **Safety Focus:** Commitment to health and workplace safety.

Automated Warehousing Installation

We specialise in installing locally and internationally sourced equipment, offering services such as:

- Light goods conveyor, monorail, and ASRS crane installations.
- SRM rail, ASRS busbar, and safety fencing installations.
- Engineering, design, assembly, and commissioning.
- OEM packaging machinery and ancillary equipment.
- Project management and site coordination.

Jarlam specialise in conveyors, crane installations, engineering, design, assembly, and project management.

Ensuring precision and efficiency in all projects, optimising automated warehouse functionality.

Industry Experience

Our expertise covers:

- **Crane Installations:** SRM and ASRS cranes (4m–35m).
- **Conveyor Systems:** Robotics, palletising, tote, sorting conveyors.
- **Floor Rail & Safety Fencing:** Rail fixings, floor rail and busbar.
- **OEM Equipment:** Carton erectors, sealing and scanning systems.
- **Subcontractor Network:** Managing crane and lifting operations.

Jarlam ensures precision and efficiency in every project, prioritising safety while optimising the functionality of your automated warehousing system.

About Jarlam

Jarlam Australia is a Melbourne-based mechanical engineering and fabrication company with a 1000m² workshop and a team of 40+ full time team members. With extensive experience supporting the food, pharmaceutical, logistics and packaging industries, we are proud to deliver industry-leading solutions.

Specialising in equipment and automated warehousing installations, we offer complete turnkey solutions for every project. Our comprehensive range of services includes installation, engineering, design and drafting as well as custom fabrication of stainless steel products. Jarlam has the capabilities to meet all your project requirements.

Our Values

We prioritise:

- **Customer Service:** Professional, respectful, and client-focused.
- **Reliability:** On-time project completion.
- **Pride:** High-quality workmanship.
- **Teamwork:** Safety-focused collaboration.
- **Communication:** Honest and long-lasting relationships.

Jarlam provides engineering, fabrication, installation, and reliable, client-focused services.
